

Credentials

Spatter Cure is a **Patented Product**. It has been patented by the Indian Patent Office, Govt. of India. Spatter Cure SC-07 has also been accredited by eminent organisations. This has been the result of the extensive internal testing and application of the product that these organisations have undertaken.

Spatter Cure Enterprises is also ISO 9001:2008 Certified.

INDIAN PATENT OFFICE, GOVT. OF INDIA

Our technology has been granted patent by the Indian Patent Office, Government of India. Besides, our technology Spatter Cure SC-07 has received rave reviews from organisations across the country. The product has been approved, accredited and certified as an innovation and development in the engineering industry. Enlisted here are few of them.

M/s. Welding Research Institute, (Trichi).

We have tested the sample of your product "SC-07" with manual metal arc welding and CO2 welding. The results are found satisfactory.

M/s. Bharat Heavy Electrical Ltd., NOIDA

An innovative product developed by M/s. Spatter Cure Enterprises, New Delhi, which reduces the requirement of chipping and grinding between inner layer welding. The product was tried at our IP-WHRP site where it has given encouraging result.

M/s. Engineers (India)Ltd.

We opine that this product would be of use of this product at any of our vender/contractors works/site.

M/s. Lloyd's Register Industrial Services (INDIA) Pvt Ltd

We don't have any objection on the use of this product, provided the users have qualified there welding procedure using this product.

M/s. Garden Reach Shipbuilders and Engineers Ltd.

The product was tried out for our works and found satisfactory.

M/s. Research Design & Standerds Organisation (RDSO), Lucknow

Spatter Cure SC-07, an anti spatter compound cum flux will be very useful to improve the welding performance.

M/s. M.N Dastur & Co.Ltd.

We have no objection if the fabricators use this compound to improve the welding quality.

M/S. WELDING RESEARCH INSTITUTE, TRICHI

We have tested the sample of your product "SC-07" with manual metal arc welding and CO2 welding.

The results are found satisfactory.

M/s. BHARAT HEAVY ELECTRICAL LTD., NOIDA

An innovative product developed by M/s.Spatter Cure Enterprises, New Delhi, which reduces the requirement of chipping and grinding between inner layer welding. The product was tried at our IP-WHRP site where it has given encouraging result.

M/s.ENGINEERS (INDIA)LTD., NEW DELHI

We opine that this product would be of use of this product at any of our vender/contractors works/site.

M/s. LLOYD'S REGISTER INDUSTRIAL SERVICES (INDIA) PVT LTD, YAMUNANAGAR

We don't have any objection on the use of this product, provided the users have qualified there welding procedure using this product.

M/s. GARDEN REACH SHIPBUILDERS AND ENGINEERS LTD., KOLKATA

The product was tried out for our works and found satisfactory.

M/s. RESEARCH DESIGN & STANDARDS ORGANISATION (RDSO), LUCKNOW

Spatter Cure SC-07,an anti spatter compound cum flux will be very useful to improve the welding performance.

M/s. M.N DASTUR & Co.LTD., KOLKATA

We have no objection if the fabricators use this compound to improve the welding quality.

The range of Spatter Cure products gives a dense and clean weld with no post weld operations like chipping and grinding. Just wipe off the spatters with a wire brush or even a cloth, and you will get a shining, clean surface with a visibly perfect weld joint. To know more about Spatter Cure Products, click [here](#).
